

TI-Electronic - Tommy-Invest Ltd. Environmental Policy

TI-Electronic is committed to operating in a sustainable and environmentally friendly manner, minimizing the environmental impact of its activities, while ensuring the health and safety of its employees, customers and partners. In order to fulfill our social responsibility and long-term sustainability goals, we follow the following principles:

1. Legal and Regulatory Compliance

We comply with all relevant environmental, health and safety laws, regulations and ordinances, as well as TI-Electronic's own standards

We regularly review and update our operations in accordance with the changing regulatory environment.

2. Responsible Risk Management and Workplace Safety

We identify and assess environmental, health and safety risks and take active steps to reduce them.

We provide a safe and healthy working environment for our employees, helping to prevent workplace injuries and illnesses.

We conduct a thorough environmental impact assessment before introducing new projects and activities.

3. Sustainable Resource Management

We reduce our energy and water consumption and greenhouse gas emissions.

We are committed to conserving natural resources and using materials efficiently.

We strive to minimize waste generation, reuse waste, and maximize recycling.

4. Environmentally Friendly Products and Technologies

We use environmentally friendly materials and technologies in the development and production of our products.

We design our products and services to have minimal environmental impact throughout their entire life cycle.

5. Climate Protection and Carbon Footprint Reduction

We support the use of renewable energy sources and energy efficiency measures. We actively work to reduce the carbon footprint of our products and services.

We continuously investigate and implement more sustainable solutions in our manufacturing and logistics processes.

6. Responsibility to Our Suppliers and Business Partners

We encourage our suppliers and partners to comply with environmental, health and safety regulations.

We work together with our partners to promote sustainable and environmentally friendly solutions.

7. Continuous Development and Awareness Raising

We provide environmental and sustainability training to our employees. We communicate our results and objectives in a sustainability report.

We engage in open dialogue with our stakeholders and encourage innovation to improve our environmental performance.

TI-Electronic is committed to environmental protection and sustainable development and continuously strives to ensure that its activities have a positive impact on future generations.
